( ) Annual percentage change

\* Preliminary, subject to revision.

1/ Domestic debt figures were revised in consistency with international standards of classification. Debt figures depict consolidated stocks at three different levels of compilation; the Budget Sector, the General Government, and the Public Sector. The Budget sector debt stock encompasses outstanding stocks of Central Administration, Local Governments, and Public Service Authorities. The General Government debt stock includes the consolidated debt stocks of the Budget sector, the NIB, and SIF. The Public sector debt stock corresponds to the consolidated debt of the General Government and Economic Authorities.

2/ Outstanding domestic debt stocks due on Central Administration, Local Governments, and Public Service Authorities.

3/ Consolidated domestic debt of the Budget sector, NIB, and SIF. This level of compilation entails the deduction of Budget Sector borrowings from NIB, MOF securities held by the SIF and NIB, the SIF bonds, and NIB borrowings from SIF.

4/ Consolidated domestic debt due on the General Government and Economic Authorities. This level of compilation excludes outstanding debt of Economic Authorities to NIB as well as Budget Sector borrowing from Economic Authorities.

5/ Total deposits of General Government and Economic Authorities (net of SIF deposits and Budget Sector borrowing from Economic Authorities).

6/ According to Ministry of Economic Development, GDP(at market prices) for 2010/2011 is projected to reach LE 1378 billion, compared to LE 1206.7 billion recorded in 2009/2010.

\* Preliminary, subject to revision.

1/ Outstanding domestic debt stock, due on Central Administration, Local Governments, and Public Service Authorities.

2/ In light of the enhanced transparency of the new fiscal policy framework, the outstanding debt on Treasury to SIF (through NIB) was registered as a direct liability on the first to the latter on July 1<sup>st</sup>, 2006. This was associated with the issuance of two treasury bonds in interest of SIF, worth LE 197.725 billions. The third bond worth LE 74.5 million was issued at end of June 2007.

3/ Includes outstanding interest payments on Treasury to NIB.

4/ Part of SIF deposits that are used as loan facilities for the budget sector, currently recognized as part of budget sector domestic debt obligations.

5/ According to Ministry of Economic Development, GDP(at market prices) for 2010/2011 is projected to reach LE 1378 billion, compared to LE 1206.7 billion recorded in 2009/2010.

\* Preliminary, subject to revision.

1/ Consolidated domestic debt due on the General Government and Economic Authorities. This level of compilation excludes outstanding debt of Economic Authorities to NIB.

2/ This represents part of the Economic Authorities' deposits at TSA that is borrowed by the Budget sector in the form of loan facilities. Hence it represents an interrelated debt between the Budget and Economic Authorities and is therefore deducted on consolidation from both gross Public Sector debt and deposits of Economic Authorities.

3/ SIF deposits were previously included in General Government deposits, see Table (16).

4/ Data revised to exclude deposits used as loan facilities for budget sector starting June 2006.

5/ According to Ministry of Economic Development, GDP(at market prices) for 2010/2011 is projected to reach LE 1378 billion, compared to LE 1206.7 billion recorded in 2009/2010.

\* Preliminary.

( ) Annual growth rates.

1/ Based on CBE classification. CBE writes-off outstanding debt on government entities (both direct and indirect) to Paris Club according to rescheduled dates of repayments. On the other hand, indebted government entities write-off these debts (dominated in EGP) once they are paid back to CBE and according to original schedule, which precedes rescheduled dates.

2/ CBE reclassified US\$ 4.3 billion as part of Central and Local Government debt, that was only reflected in its statistics starting September 2008. It is noteworthy that such reclassification has not had any impact on the total outstanding foreign debt.
