1/ Data reflects budget figures in light of Presidential Decree Number 32 for the year 2015. It is noteworthy that final accounts of the state budget 2015/2016 has been presented to the parliament and will be published by the next month financial monthly bulletin.

2/ Data reflects budget figures in light of Presidential Decree Number 8 for the year 2016.

3/ The decline in taxes on corporate profit from CBE is mainly due to the CBE's repayment of around LE 6 billion during the period of comparison (Q1 of FY16/17), which represents an advanced income tax repayment for the FY15/16. Unlike previous years the CBE's deduction of income tax was recorded during the corresponding year rather than the following year, and which led CBE tax receipts to appear at a lower amount during the period of study compared to the same period last year. This does not affect CBE income. Whereas, taxes receipts from CBE are expected to record additional revenues during the coming period.

4/ The decline in taxes on corporate profit from Suez Canal is mainly due to the differences in time of recording Suez Canal receipts, and does not affect Suez Canal income. Whereas, taxes receipts from Suez canal are expected to record additional revenues during the coming period.

FISCAL SECTOR

Source: Ministry of Finance

* Preliminary-Actual.

1/ The decrease in non-tax revenues, came on the back of the decline in the exceptional resources from grants which were included in the state budget for the year 2014/2015 to reach LE 25.4 billion down from LE 95.9 billion in 2013/2014.

2/ Data reflects budget figures in light of Presidential Decree Number 32 for the year 2015. It is noteworthy that final accounts of the state budget 2015/2016 has been presented to the parliament and will be published by the next month financial monthly bulletin.

3/ Data reflects budget figures in light of Presidential Decree Number 8 for the year 2016.

4/ Includes grants from Public Entities .

5/ Revenues from special accounts and funds belonging to budget sector entities like public universities, medical centers and research institutes. Such revenues are met by equivalent amounts on the expenditures side.

6/ Includes additional 10 percent of the monthly receipts of the Special Accounts and Funds, in addition to 25 percent of the outstanding balances of those funds were transferred to the Ministry of Finance applied only during 2013/2014 according to law Number 19 for the year 2013.

7/ Reflects allocations to finance investment projects in previous year, which were not used during that year. Such allocations are thus carried forward to the current fiscal year and recorded as self-financing sources of investment under miscellaneous revenues.

8/ The decline in dividends from CBE is mainly due the CBE's advanced repayment during the FY16/17. Unlike previous years the CBE's deduction of dividends was recorded during the corresponding year rather than the following year, and which led CBE tax receipts to appear at a lower amount during the period of study compared to the same period last year. This does not affect CBE income. Whereas, receipts from CBE are expected to record additional revenues during the coming period.

9/ Other Property Income has increased during the period of study mainly due to revenues from the sale of 4G for the three telecommunication companies existing in Egypt.

10/ The increase in "Other capital revenue to finance investments" represents expected increases in self finances for the social housing program. This increase has similarly corresponding increases on the expenditure side.
