1/ Preliminary. It is noteworthy that final accounts of the state budget 2015/2016 is still under review by the Parliament and will remain preliminary until being approved.

2/ Data reflects budget figures in light of Presidential Decree Number 8 for the year 2016.

3/ The decline in taxes on corporate profit from CBE could be explained in light of the CBE's repayment of around LE 6 billion during the period of comparison, which represents an advanced income tax repayment for the FY15/16. Unlike previous years the CBE's deduction of income tax was recorded during the corresponding year rather than the following year, and which led CBE tax receipts to appear at a lower amount during the period of study in 2016/2017 compared to the same period during 2015/2016. This does not affect CBE income. Whereas, taxes receipts from CBE are expected to record additional revenues during the coming period.

4/ The decline in Taxes on Corporate Profits from Other Companies is mainly due to the adoption of additional exceptional taxes during the year of comparison FY 14/15, and which was cancelled during FY 15/16, leading Taxes on Corporate Profits from Other Companies to appear at a lower amount during the year of study compared to last year. This includes a 5 percent additional taxes on the income exceeding LE 1 million. This does not affect Other companies income, as it is expected to record additional revenues during the coming period.

\* Preliminary-Actual.

1/ The decrease in non-tax revenues, came on the back of the decline in the exceptional resources from grants which were included in the state budget for the year 2014/2015 to reach LE 25.4 billion down from LE 95.9 billion in 2013/2014.

2/ Preliminary. It is noteworthy that final accounts of the state budget 2015/2016 is still under review by the Parliament and will remain preliminary until being approved.

3/ Data reflects budget figures in light of Presidential Decree Number 8 for the year 2016.

4/ Includes grants from Public Entities .

5/ Revenues from special accounts and funds belonging to budget sector entities like public universities, medical centers and research institutes. Such revenues are met by equivalent amounts on the expenditures side.

6/ Includes additional 10 percent of the monthly receipts of the Special Accounts and Funds, in addition to 25 percent of the outstanding balances of those funds were transferred to the Ministry of Finance applied only during 2013/2014 according to law Number 19 for the year 2013.

7/ Reflects allocations to finance investment projects in previous year, which were not used during that year. Such allocations are thus carried forward to the current fiscal year and recorded as self-financing sources of investment under miscellaneous revenues.

8/ The decline in dividends from CBE is mainly due the CBE's advanced repayment during the FY16/17. Unlike previous years the CBE's deduction of dividends was recorded during the corresponding year rather than the following year, and which led CBE tax receipts to appear at a lower amount during the period of study compared to the same period last year. This does not affect CBE income. Whereas, receipts from CBE are expected to record additional revenues during the coming period.

9/ Other Property Income has increased during the period of study mainly due to revenues from the sale of 4G for the three telecommunication companies existing in Egypt.

10/ The increase in "Other capital revenue to finance investments" represents expected increases in self finances for the social housing program. This increase has similarly corresponding increases on the expenditure side.

11/ The decline in dividends from EGPC is mainly in light of the decline in international petroleum prices.

12/ The decline in dividends receipts from Suez canal is partially due to the slowdown in international trade, and China slowed economic growth. In addition, the decline in international oil prices have affected the number of vessels passing through Suez Canal.

13/ The increase in receipts from Miscellaneous revenues is mainly due to the acquirance of 25 percent of the delayed profits with a total amount of LE 1.5 billion, and the increase in resettlements revenues from Lands by LE 4 billion, in addition to the repayment of other tax dues by LE 3.5 billion during the year of study.

\* Preliminary-Actual.

1/ Preliminary. It is noteworthy that final accounts of the state budget 2015/2016 is still under review by the Parliament and will remain preliminary until being approved.

2/ Data reflects budget figures in light of Presidential Decree Number 8 for the year 2016.

3/ Reflects Treasury contributions towards Pension Funds.

4/ Includes expenditures on defense.

5/ The decline in GASC spending is mainly due to the differences in the time of buying domestic and imported wheat, and doesn't affect GASC subsidies. Whereas, GASC subsidies has increased by 11.6 percent during Budget FY2016/2017, compared to previous year budget.

6/ The increase in "Direct investment (including customs fees)" represents expected increases in self finances for the social housing program. This increase has similarly corresponding increases on the revenues side.

7/ The decline in subsidies from EGPC is mainly in light of the decline in international petroleum prices.

8/ The increase in spending on Direct investment (including customs fees) is mainly due to the increase in infrastructure spending, more specifically spending on roads, transportation, buildings, hospitals and schools. To that extent, total spending on construction amounted to LE 29.2 billion during FY15/16, increasing by 44 percent compared to the previous year, and spending on Non-residential buildings amounted to LE 10 billion, increasing by 17.7 percent compared to the previous year.

9/ The increase in Service expenditures for non employees reflects the increase in spending on health treatments financed by state budget and which has increased by by LE 2.3 billion during the period of study compared to the same period last year.
