1/ Preliminary. It is noteworthy that final accounts of the state budget 2016/2017 is still under review by the Parliament and will remain preliminary until being approved.

2/ Data reflects budget figures in light of Decree Number 145 for the year 2017.

3/ The decline in Taxes on Corporate Profits from Other Companies is mainly due to the adoption of additional exceptional taxes during the year of comparison FY 14/15, and which was cancelled during FY 15/16, leading Taxes on Corporate Profits from Other Companies to appear at a lower amount during the year of study compared to last year. This includes a 5 percent additional taxes on the income exceeding LE 1 million. This does not affect Other companies income, as it is expected to record additional revenues during the coming period.

4/ The decline in Taxes on Corporate Profits from CBE is mainly due to the accomodative monetary policy adopted by the CBE to curb inflation since FY16/17, where the increase in interest rates has imposed burdens on CBE profits.

1/ The decrease in non-tax revenues, came on the back of the decline in the exceptional resources from grants which were included in the state budget for the year 2014/2015 to reach LE 25.4 billion down from LE 95.9 billion in 2013/2014.

2/ Preliminary. It is noteworthy that final accounts of the state budget 2016/2017 is still under review by the Parliament and will remain preliminary until being approved.

3/ Data reflects budget figures in light of Presidential Decree Number 145 for the year 2017.

4/ Includes grants from Public Entities .

5/ Revenues from special accounts and funds belonging to budget sector entities like public universities, medical centers and research institutes. Such revenues are met by equivalent amounts on the expenditures side.

6/ Includes additional 10 percent of the monthly receipts of the Special Accounts and Funds, in addition to 25 percent of the outstanding balances of those funds were transfered to the Ministry of Finance applied only during 2013/2014 according to law Number 19 for the year 2013.

7/ Reflects allocations to finance investment projects in previous year, which were not used during that year. Such allocations are thus carried forward to the current fiscal year and recorded as self-financing sources of investment under miscellaneous revenues.

8/ The increase in "Other capital revenue to finance investments" represents expected increases in self finances for the social housing program. This increase has similarly corresponding increases on the expenditure side.

9/ The decline in dividnes from EGPC is mainly in light of the decline in international petroleum prices.

10/ The decline in dividends receipts from Suez canal is partially due to the slowdown in international trade, and China slowed economic growth. In addition, the decline in international oil prices have affected the number of vessels passing through Suez Canal.

11/ The increase in receipts from Miscellaneous revenues is mainly due to the acquirance of 25 percent of the delayed profits with a total amount of LE 1.5 billion, and the increase in resettlements revenues from Lands by LE 4 billion, in addition to the repayment of other tax dues by LE 3.5 billion during the year of study.

12/ The decline in Dividends collected from EGPC is due to the increase in cost budens on EGPC due to the effect of depreciated Egyptian Pound Exchange rate against USD Dollars.

13/ The decline in Dividends collected from CBE is mainly due to the accomodative monetary policy adopted by the CBE to curb inflation since FY16/17, where the increase in interest rates has imposed burdens on CBE profits.

14/ The increase in Other Property Income is due to the additional LE 6.6 billion from the sale of 4G liscence.

15/ The increase in grants is mainly due to Capital Grants received from United Arab Emirates (UAE) to finance investments during FY16/17.

16/ The decline in dividends from Suez Canal could be explained in light of the effect of downsized performance of the global economy.

4/ Includes expenditures on defense.

5/ The increase in "Direct investment (including customs fees)" represents expected increases in self finances for the social housing program. This increase has similarly corresponding increases on the revenues side.

6/ The decline in subsidies from EGPC is mainly in light of the decline in international petroleum prices.

7/ The increase in spending on Direct investment (including customs fees) is mainly due to the increase in infrastructure spending , more specifically spending on roads, transportation, buildings, hospitals and schools. To that extent, total spending on construction amounted to LE 29.2 billion during FY15/16, increasing by 44 percent compared to the previous year, and spending on Non-residential buildings amounted to LE 10 billion, increasing by 17.7 percent compared to the previous year.

8/ The increase in Service expenditures for non employees reflects the increase in spending on health treatments financed by state budget.

9/ The notable increase in subsidies to EGPC is mainly due to the Exchange rate depreciation effects which has increased EGPC cost burdens substituted through increasing the allocated subsidies to EGPC.
