Source: Ministry of Finance.

1/ Covers Central Administration and Local Governments, and Public Services Authorities.

2/ Includes consolidated operations for the Budget sector, National Investment Bank (NIB), and Social Insurance Funds (SF). Data prepared on consolidated basis; excluding financial interrelations between the three bodies.

3/ Overall deficit excluding net acquisition of financial assets.

4/ GDP actuals for FY18/19 has been revised to reach LE 5322.3 billion instead of LE 5250.9 billion. Meanwhile GDP for FY19/20 is projected to reach LE 6162.6 billion as per the Ministry of Finance Calculations

5/ Ministry of finance has published for the first time the general government's performance data for the fiscal year14/15, and that is after auditing the data with the concerned entities that are included within the general government scope.

6/ The increase in grants is mainly due to Capital Grants received from United Arab Emirates (UAE) to finance investments during FY16/17.

7/ Data reflects budget figures in light of Decree Number 79 for the year 2019.

* The decline in tax revenues is a result of a combined factor among which the deceleration in receipts from CBE in light of the restrictive monetary policy, in addition to the decline in some receipts associated with the appreciation in the Egyptian currency such as the receipts from customs and Suez Canal.

1/ Includes Central Administration and Local Governments, and Public Services Authorities.

2/ Based on IMF GFS 2001 (modified to cash basis).

3/ Data reflects budget figures in light of Decree Number 79 for the year 2019.

4/ The decrease in non-tax revenues, came on the back of the decline in the exceptional resources from grants during the year of comparison to reach LE 25.4 billion during FY14/15, compared to LE 95.9 billion during FY13/14.

5/ Overall deficit excluding net acquisition of financial assets.

6/ GDP actuals for FY18/19 has been revised to reach LE 5322.3 billion instead of LE 5250.9 billion. Meanwhile GDP for FY19/20 is projected to reach LE 6162.6 billion as per the Ministry of Finance Calculations

7/ The increase in grants is mainly due to Capital Grants received from United Arab Emirates (UAE) to finance investments during FY16/17.

8/ The increase in interest could be explained in light of the increase in interest Payments due to social pensions' advance payment in September 2019 instead of later in June same fiscal year.

9/ The increase in Budget deficit during the period of study compared to same period last year could be explained in light of the increase in interest Payments due to social pensions' advance payment in September 2019 instead of later in June same fiscal year.

1/ Includes Interest and Principal Payments (excluding arrears).

2/ The increase in interest could be explained in light of the increase in interest Payments due to social pensions' advance payment in September 2019 instead of later in June same fiscal year.

-- Data are preliminary & under preparation until being finalized.

* The decline in tax revenues is a result of a combined factor among which the deceleration in receipts from CBE in light of the restrictive monetary policy, in addition to the decline in some receipts associated with the appreciation in the Egyptian currency such as the receipts from customs and Suez Canal.

1/ Data reflects budget figures in light of Decree Number 79 for the year 2019.

2/ The decline in Taxes on Corporate Profits from CBE is mainly due to the accommodative monetary policy adopted by the CBE to curb inflation since FY16/17, where the increase in interest rates has imposed burdens on CBE profits, as it is expected that no tax receipts would be collected from CBE till end of FY19/20.

3/ The decline in Taxes on Goods and Services, and Taxes on International Trade are primarily due to the appreciation of the Egyptian currency.

Source: Ministry of Finance

-- Data are preliminary & under preparation until being finalized.

1/ The decrease in non-tax revenues, came on the back of the decline in the exceptional resources from grants which were included in the state budget for the year 2014/2015 to reach LE 25.4 billion down from LE 95.9 billion in 2013/2014.

2/ Data reflects budget figures in light of Decree Number 79 for the year 2019.

3/ Includes grants from Public Entities.

4/ Revenues from special accounts and funds belonging to budget sector entities like public universities, medical centers and research institutes. Such revenues are met by equivalent amounts on the expenditures side.

5/ Includes additional 10 percent of the monthly receipts of the Special Accounts and Funds, in addition to 25 percent of the outstanding balances of those funds were transferred to the Ministry of Finance applied only during 2013/2014 according to law Number 19 for the year 2013.

6/ Reflects allocations to finance investment projects in previous year, which were not used during that year. Such allocations are thus carried forward to the current fiscal year and recorded as self-financing sources of investment under miscellaneous revenues.

7/ The increase in "Other capital revenue to finance investments" represents expected increases in self finances for the social housing program. This increase has similarly corresponding increases on the expenditure side.

8/ The decline in dividends from EGPC is mainly in light of the decline in international petroleum prices.

9/ The decline in dividends receipts from Suez canal is partially due to the slowdown in international trade, and China slowed economic growth. In addition, the decline in international oil prices have affected the number of vessels passing through Suez Canal.

10/ The increase in receipts from Miscellaneous revenues is mainly due to the acquisition of 25 percent of the delayed profits with a total amount of LE 1.5 billion, and the increase in resettlements revenues from Lands by LE 4 billion, in addition to the repayment of other tax dues by LE 3.5 billion during the year of study.

11/ The decline in Dividends collected from EGPC is due to the increase in cost burdens on EGPC due to the effect of depreciated Egyptian Pound Exchange rate against US Dollars.

12/ The decline in Dividends collected from CBE is mainly due to the accommodative monetary policy adopted by the CBE to curb inflation since FY16/17, where the increase in interest rates has imposed burdens on CBE profits.

13/ The increase in Other Property Income is due to the additional LE 6.6 billion from the sale of 4G license.

14/ The increase in grants is mainly due to Capital Grants received from United Arab Emirates (UAE) to finance investments during FY16/17.

15/ Reflects the indirect cost effect of economic reform program, as it is expected that no dividends would be collected from CBE till end of FY19/20.

16/ The decline in dividends from Suez Canal could be explained in light of the appreciation of the Egyptian currency.

17/ The decline in Other capital revenue to finance investments is related to retained revenues that would be collected before the end of current fiscal year.

Source: Ministry of Finance.

-- Data are preliminary & under preparation until being finalized.

1/ Data reflects budget figures in light of Decree Number 79 for the year 2019.

2/ Reflects Treasury contributions towards Pension Funds.

3/ Includes expenditures on defense.

4/ The increase in "Direct investment (including customs fees)" represents expected increases in self finances for the social housing program. This increase has similarly corresponding increases on the revenues side.

5/ The decline in subsidies from EGPC is mainly in light of the decline in international petroleum prices.

6/ The increase in spending on Direct investment (including customs fees) is mainly due to the increase in infrastructure spending, more specifically spending on roads, transportation, buildings, hospitals and schools. To that extent, total spending on construction amounted to LE 29.2 billion during FY15/16, increasing by 44 percent compared to the previous year, and spending on Non-residential buildings amounted to LE 10 billion, increasing by 17.7 percent compared to the previous year.

7/ The increase in Service expenditures for non employees reflects the increase in spending on health treatments financed by state budget.

8/ The notable increase in subsidies to EGPC is mainly due to the Exchange rate depreciation effects which has increased EGPC cost burdens substituted through increasing the allocated subsidies to EGPC.

9/ The increase in interest could be explained in light of the increase in interest Payments due to social pensions' advance payment in September 2019 instead of later in June same fiscal year.
