-- Data are preliminary & under preparation until being finalized.

1/ Data reflects budget figures in light of Decree Number 85 for the year 2020.

2/ The decline in Taxes on Corporate Profits from CBE is mainly due to the accommodative monetary policy adopted by the CBE to curb inflation since FY16/17, where the increase in interest rates has imposed burdens on CBE profits, as it is expected that no tax receipts would be collected from CBE till end of FY19/20.

1/ Data reflects budget figures in light of Decree Number 85 for the year 2020.

2/ Includes grants from Public Entities .

3/ Revenues from special accounts and funds belonging to budget sector entities like public universities, medical centers and research institutes. Such revenues are met by equivalent amounts on the expenditures side.

4/ Includes additional 10 percent of the monthly receipts of the Special Accounts and Funds, in addition to 25 percent of the outstanding balances of those funds were transferred to the Ministry of Finance applied only during 2013/2014 according to law Number 19 for the year 2013.

6/ The increase in "Other capital revenue to finance investments" represents expected increases in self finances for the social housing program. This increase has similarly corresponding increases on the expenditure side.

7/ The decline in dividends from EGPC is mainly in light of the decline in international petroleum prices.

8/ The decline in dividends receipts from Suez canal is partially due to the slowdown in international trade, and China slowed economic growth. In addition, the decline in international oil prices have affected the number of vessels passing through Suez Canal.

9/ The increase in receipts from Miscellaneous revenues is mainly due to the acquisition of 25 percent of the delayed profits with a total amount of LE 1.5 billion, and the increase in resettlements revenues from Lands by LE 4 billion, in addition to the repayment of other tax dues by LE 3.5 billion during the year of study.

10/ The decline in Dividends collected from EGPC is due to the increase in cost burdens on EGPC due to the effect of depreciated Egyptian Pound Exchange rate against USD dollars.

11/ The decline in Dividends collected from CBE is mainly due to the accommodative monetary policy adopted by the CBE to curb inflation since FY16/17, where the increase in interest rates has imposed burdens on CBE profits.

12/ The increase in Other Property Income is due to the additional LE 6.6 billion from the sale of 4G liscence.

13/ The increase in grants is mainly due to Capital Grants received from United Arab Emirates (UAE) to finance investments during FY16/17.

14/ Reflects the indirect cost effect of economic reform program, as it is expected that no dividends would be collected from CBE till end of FY19/20.

15/ The increase in current miscellaneous revenues represents mainly increased receipts related to previous year revenues, and other current revenues.

16/ The increase in capital revenues represent increased receipts from miscellaneous capital revenues related to acquisitions in public authorities. In addition to increased proceeds from sale of non- productive assets (Lands).

17/ The increase in grants reflects mainly increased grants from other general government units to finance investments.
