* Preliminary-Actual.

* Data reflects budget figures in light of Presidential Decree Number 8 for the year 2016.

-- Data are preliminary & under preparation until being finalized.

1/ Data reflects budget figures in light of Decree Number 85 for the year 2022.

2/ The decline in Taxes on Corporate Profits from CBE is mainly due to the accommodative monetary policy adopted by the CBE to curb inflation since FY16/17, where the increase in interest rates has imposed burdens on CBE profits, as it is expected that no tax receipts would be collected from CBE till end of FY19/20.

3/ The noticeable increase in Tax on T-bills and bonds' payable interest is mainly due to the adoption of new law number 3 for the year 2021, which included the removal of tax exemptions implied to T-bills and bonds' payable interest in March 2021.

8/ The decline in dividends receipts from Suez canal is partially due to the slowdown in international trade, and China slowed economic growth. In addition, the decline in international oil prices have affected the number of vessels passing through Suez Canal.

9/ The increase in receipts from Miscellaneous revenues is mainly due to the acquirance of 25 percent of the delayed profits with a total amount of LE 1.5 billion, and the increase in resettlements revenues from Lands by LE 4 billion, in addition to the repayment of other tax dues by LE 3.5 billion during the year of study.

10/ The decline in Dividends collected from EGPC is due to the increase in cost budens on EGPC due to the effect of depreciated Egyptian Pound Exchange rate against USD dollars.

11/ The decline in Dividends collected from CBE is mainly due to the accomodative monetary policy adopted by the CBE to curb inflation since FY16/17, where the increase in interest rates has imposed burdens on CBE profits.

12/ The increase in Other Property Income is due to the additional LE 6.6 billion from the sale of 4G liscence.

13/ The increase in grants is mainly due to Capital Grants received from United Arab Emirates (UAE) to finance investments during FY16/17.

14/ Reflects the indirect cost effect of economic reform program, as it is expected that no dividends would be collected from CBE till end of FY19/20.

15/ The increase in current miscellaneous revenues represents mainly increased receipts related to previous year revenues, and other current revenues.

16/ The increase in capital revenues represent increased receipts from other capital revenues to finance investments.

17/ The increase in grants reflects mainly increased grants from other general government units to finance investments.

19/ Data reflects budget figures in light of Decree Number 85 for the year 2022.

20/ The rise in grants is mainly due to increased grants from other general government units related to preparations for COP27.

-- Data are preliminary & under preparation until being finalized.

1/ Data reflects budget figures in light of Decree Number 85 for the year 2020.

2/ Reflects Treasury contributions towards Pension Funds.

3/ Includes expenditures on defense.

To that extent, total spending on construction amounted to LE 29.2 billion during FY15/16, increasing by 44 percent compared to the previous year, and spending on Non-residential buildings amounted to LE 10 billion, increasing by 17.7 percent compared to the previous year.

7/ The increase in Service expenditures for non employees reflects the increase in spending on health treatments financed by state budget.

8/ The notable increase in subsidies to EGPC is mainly due to the Exchange rate depreciation effects which has increased EGPC cost burdens substituted through increasing the allocated subsidies to EGPC.

9/ It is noteworthy that "of which" refers that not all subcomponents are presented in the table, thereby the grand total might not add up. For instance, contingency reserves are not presented in this chapter.

10/ Data reflects budget figures in light of Decree Number 85 for the year 2022.
