\* Preliminary, subject to revision.

1/ Domestic debt figures were revised in consistency with international standards of classification. Debt figures depict consolidated stocks at three different levels of compilation; the Budget Sector, the General Government, and the Public Sector. The Budget sector debt stock encompasses outstanding stocks of Central Administration, Local Governments, and Public Service Authorities. The General Government debt stock includes the consolidated debt stocks of the Budget sector, the NIB, and SIF. The Public sector debt stock corresponds to the consolidated debt of the General Government and Economic Authorities.

2/ Outstanding domestic debt stocks due on Central Administration, Local Governments, and Public Service Authorities.

3/ The notable decline in Budget sector deposits can be explained in light of the use of nearly LE 60 billion according to the presidential decree number 105 for the year 2013.

4/ Consolidated domestic debt of the Budget sector, NIB, and SIF. This level of compilation entails the deduction of Budget Sector borrowings from NIB, MOF securities held by the SIF and NIB, the SIF bonds, and NIB borrowings from SIF.

5/ Consolidated domestic debt due on the General Government and Economic Authorities. This level of compilation excludes outstanding debt of Economic Authorities to NIB as well as Budget Sector borrowing from Economic Authorities.

6/ Total deposits of General Government and Economic Authorities (net of SIF deposits and Budget Sector borrowing from Economic Authorities).

7/ According to the Ministry of Planning, GDP (at market prices) for 2013/2014 was revised to reach LE 1997.6 billion compared to LE 1753 billion in 2012/2013. It is also worthy to note that GDP estimates for 2014/2015 have been revised to LE 2321.1 billion in light of 2013/2014 actuals.

<sup>\*</sup> Preliminary, subject to revision.<sup>1/</sup> Consolidated domestic debt due on the General Government and Economic Authorities. This level of compilation excludes outstanding debt of Economic Authorities to NIB.<sup>2/</sup> This represents part of the Economic Authorities' deposits at TSA that is borrowed by the Budget sector in the form of loan facilities. Hence it represents an interrelated debt between the Budget and Economic Authorities and is therefore deducted on consolidation from both gross Public Sector debt and deposits of Economic Authorities.<sup>3/</sup> SIF deposits were previously included in General Government deposits, see Table (16).<sup>4/</sup> Data revised to exclude deposits used as loan facilities for budget sector starting June 2006.<sup>5/</sup> According to the Ministry of Planning, GDP (at market prices) for 2013/2014 was revised to reach LE 1997.6 billion compared to LE 1753 billion in 2012/2013. It is also worthy to note that GDP estimates for 2014/2015 have been revised to LE 2321.1 billion in light of 2013/2014 actuals.

1/ Based on CBE classification. CBE writes-off outstanding debt on government entities (both direct and indirect) to Paris Club according to rescheduled dates of repayments. On the other hand, indebted government entities write-off these debts (dominated in EGP) once they are paid back to CBE and according to original schedule, which precedes rescheduled dates.

2/ CBE reclassified US\$ 4.3 billion as part of Central and Local Government debt, that was only reflected in its statistics starting September 2008. It is noteworthy that such reclassification has not had any impact on the total outstanding foreign debt.

3/ Outstanding external debt has witnessed a decrease at end of December 2014 by US\$ 4.7 billion compared to end of June 2014, of which about US\$ 2.7 billion decline due to the repayment of Qatari bonds, in addition to about US\$ 0.5 billion due to the repayment of a Qatari deposit, also about US\$ 0.6 billion decrease because of repayment to Paris Club, as well as US\$ 0.6 billion decrease in book value due to the depreciation of other currencies of external debt relative to US dollar, in addition to US\$ 0.1 billion short term reimbursement.

4/ According to the Ministry of Planning, GDP (at market prices) for 2013/2014 was revised to reach LE 1997.6 billion compared to LE 1753 billion in 2012/2013. It is also worthy to note that GDP estimates for 2014/2015 have been revised to LE 2321.1 billion in light of 2013/2014 actuals.
