Executive Summary

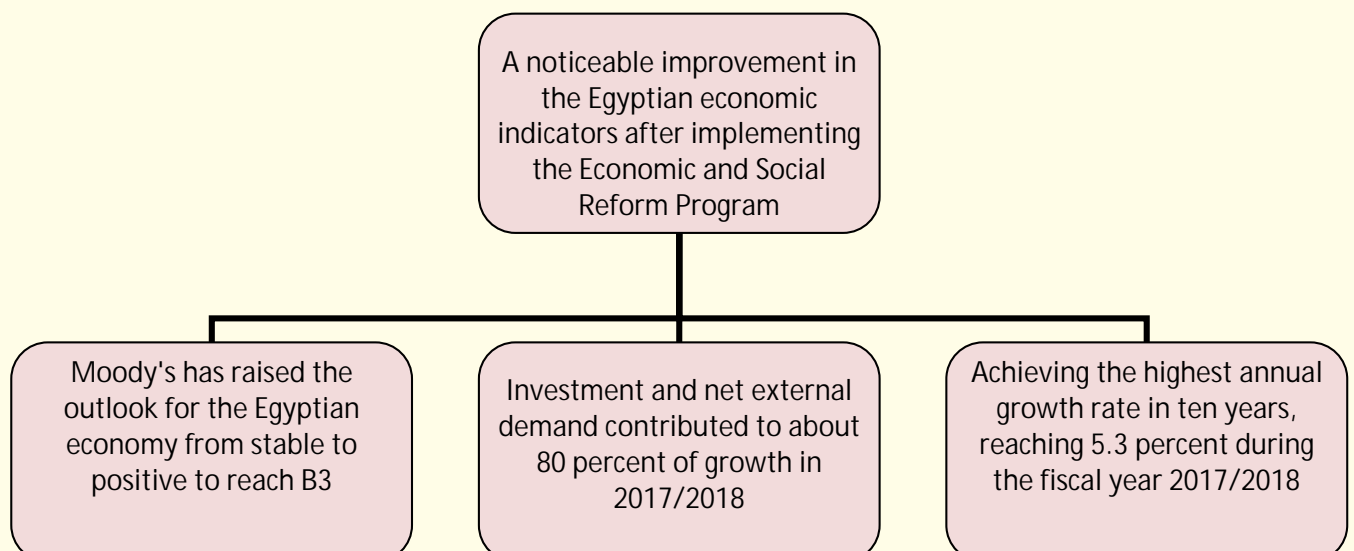

Main Highlights

The macroeconomic scene witnessed a noticeable improvement given the adoption of economic reforms by the Egyptian government which was reflected on the Egyptian economic indicators on so many levels. This has made it possible for the Egyptian economy to attract many international stakeholders and increase their confidence in the economy. One of the noticeable improvements is investment and net external demand contributing to about 80 percent of the remarkable growth that reached its highest peak of 5.3 percent in FY 2018/2019 in the past decade.

It's also worthy to mention that the 2018/2019 budget is one of the promising signals of the economic reform success, as a primary surplus is expected to be generated for the second year in a row, which has been an unforeseen event for 15 years. This event highlights nothing but the effective management of state funds that made revenues cover expenditures (excluding public debt interest payments).

This progress was clearly highlighted by Moody's announcement about raising the outlook for the Egyptian economy from stable to positive while maintaining the credit rating in both foreign and domestic currencies at B3, which is the best credit rating achieved by the Egyptian economy in five years. According to Moody's International, the Egyptian government's efficient implementation of the reform has provided financial stability in the economy offsetting the risks of debt financing.

Furthermore, a number of multinational companies are encouraged to invest in the renewable energy sector in light of the bold subsidy reform plan, especially of fuel. Accompanied by the opening of "Benban" Solar Energy Complex costing \$2.8 billion and the "Gabal El-Zeit" Wind Power Station costing \$670 million. As a result, by 2025 and before the UN 2030 SDGs, Egypt can move towards securing 42 percent of its energy needs through renewable resources. Undeniably, this can be a fact after the discovery of the "Zohr Field" of natural gas whose production increased to reach 1.6 billion cubic feet per day compared to 1.1 billion cubic feet in May 2018, in addition to raising the production to about 2.7 billion cubic feet per day by the middle of 2019.

Recent promising indicators

- Ø **PMI** increased to register 50.5 in August 2018, compared to a five-year low of 41.8 in November 2016. This is in light of the substantial increases in New Export Orders Index to record 51.1, New Orders Index increased to 50.8 and Output Index increased to 50, in addition to the increase in Stocks of Purchases Index to reach 47.4 and the reduction in raw material prices.
- Ø **Net International Reserves (NIR)** increased to a record-high US\$ 44.4 billion during August 2018 (covering 8.4 months of imports), compared to US\$ 36.1 billion at end of August 2017 (covering 7.3 months of imports), and compared to a lowest level of US\$ 13.4 billion at end of March 2013 (covering 3.5 months of imports).
- Ø **On the Fiscal front**, budget deficit declined to 1.6 percent of GDP during the period July-August 2018/2019, compared to 1.7 percent during the same period last year as revenues increased at a faster pace than expenditure in light of on-going fiscal consolidation reforms for the last two years. On the Revenues Side, there is a clear increase in Tax Receipts: General Sales Tax on Goods recorded LE 45.8 billion (increasing notably by 42.5 percent (LE 13.6 billion) in light of increased receipts from VAT on imported goods and domestic goods. Income tax receipts reached LE 22.3 billion. Taxes on Domestic Salaries reached LE 7.1 billion to increase by 32.5 percent (LE 1.7 billion). Meanwhile, collected Tax Receipts from Suez Canal increased by more than three folds (by LE 4.8 billion) to reach LE 6.7 billion, and increased receipts from Other Companies by 39.1 percent (LE 1.5 billion) to reach LE 5.2 billion. On the expenditure side, GASC subsidies increased by 48.0 percent (LE 3.0 billion) to record LE 9.3 billion, budget contributions in pensions rose by 87.9 percent (LE 4.2 billion) to reach LE 9 billion. Moreover, Investment Spending rose by 13.5 percent to record around LE 9.7 billion during the period of study.
- Ø Regarding **Monetary Developments**, M2 annual growth decreased to 18.5 percent in June 2018 (LE 3457 billion), compared to 19.4 percent in last month, and compared to 39.3 percent at end of June 2017, according to recent data released by the CBE. This is attributed to the sharp decrease in the annual growth of Net domestic assets (NDA) to record 10.2 percent at end of June 2018 (LE 3147.5 billion), compared to 30.9 percent end of June 2017. Yet, it's noteworthy to mention the considerable deceleration in government borrowing reflected in a slowdown in the annual growth of Net Claims on Government & GASC to 12 percent (LE 2217.6 billion) at end of June 2018, compared to 19.6 percent at end of June 2017. On the other hand, there's a positive annual growth trend in Net Foreign Assets (NFA) that records 407 percent (LE 309.5 billion) at end of June 2018, compared to 169.9 percent (LE 61.1 billion) at end of June 2017.
- Ø **Headline Urban Inflation** increased to record 14.2 percent in August 2018, compared to 13.5 percent during previous month, and compared to 31.9 percent in August 2017. Factors contributing to this include the increase in annual inflation among some main groups during the month of study compared to last month. On the top of which comes; "Food & Beverages", "Alcoholic beverages& tobacco", "Furnishings& household equipment", "Health", and "Transportation".
- Ø **During its Monetary Policy Committee** meeting held on September 27th, 2018, CBE decided to keep the overnight deposit rate, and overnight lending rates and the rate of

CBE's main operation unchanged at 16.75 percent, 17.75 percent and 17.25 percent, respectively. In addition, the discount rate was kept at 17.25 percent.

- Ø **The Balance of Payments (BOP)** ran an overall surplus of US\$ 12.79 billion (5.1 percent of GDP), during the FY 2017/2018, compared to a surplus of US\$ 13.72 billion (5.8 percent of GDP) in the FY 2016/2017. This decrease is mainly due to the result of the decrease in the capital and financial account by 29 percent to record US\$ 22 billion in FY 2017/2018, compared to US\$ 31 billion during the last fiscal year, this is due to the decline in Portfolio Investment in Egypt to reach US\$ 12.1 billion (4.8 percent of GDP) during the FY 2017/2018, compared to US\$ 16 billion (6.8 percent of GDP) during the last fiscal year, as well as the decline in FDI to record US\$ 7.7 billion (3.1 percent of GDP) during the FY 2017/2018, compared to US\$ 7.9 billion (3.4 percent of GDP) in the last fiscal year. The decline in the capital and financial account exceeded the increase in current account which recorded US\$ -6 billion in the FY 2017/2018, compared to US\$ -14.4 billion in the last FY 2016/2017. This is attributed to the increase in the services balance surplus to record US\$ 11.1 billion (4.4 percent of GDP) during the FY 2017/2018, compared to a lower surplus of US\$ 5.6 billion (2.4 percent of GDP) in the period of comparison, coupled by an increase in workers' remittances by US\$ 4.6 billion to record US\$ 26.4 billion compared to US\$ 21.8 billion in the period of comparison. Which covered the stability in trade balance deficit that remained at US\$ 37.3 billion (-14.85 percent of GDP) during the FY 2017/2018, compared to the same value last fiscal year.
- Ø According to the latest published figures, total number of **Tourist Arrivals** increased by 48.5 percent to reach 9.8 million tourists during the FY 2017/2018, compared to 6.6 million tourists during last fiscal year. Moreover, Tourist Nights increased to reach 102.6 million nights during FY 2017/2018 increasing by 101.6 percent, compared to 50.9 million nights during last year.
- Ø **Total remittances of Egyptians working abroad** increased during the period FY17/18 by \$4.6 billion to register a new record level of about \$26.4 billion, which is an increase of 21.0 percent, compared to about \$21.8 billion during the corresponding period last year. Accordingly, S&P expects the high and strong increase of remittances of workers abroad to continue after the abolition of restrictions on capital movement; and this will strengthen the foreign reserves in the medium term.
- Ø **GDP grew** by 5.3 percent during Q2-FY17/18, compared to 3.9 percent during the same period last fiscal year. Net Exports performance was the highlight contributing positively to growth by 0.9 PPT, compared to a negative contribution of 6.2 PPT during Q2-FY16/17. Meanwhile, public and private consumption have contributed to growth by a total contribution of 2.9 PPT, compared to 7.1 PPT during Q2-FY16/17. Investments contributed positively to growth by 1.5 PPT, compared to a higher contribution of 3.0 PPT during Q2-FY16/17. Furthermore, total Production Index rose by 9.2 percent on annual basis recording an average of 137.7 points during Q2-FY17/18, compared to a positive growth rate of 0.1 percent during Q2-FY16/17, driven mainly by Tourism Sub-Index that hiked by 78.9 percent on annual basis recording an average of 101.4 points during Q2-FY17/18, compared to negative growth rate of 21.5 percent during Q2-FY16/17, and Natural Gas Sub-Index that picked-up by 19.9 percent on annual basis recording an average of 182.4 points during Q2-FY17/18, compared to a growth rate of 6.9 percent during Q2-FY16/17.
- Ø **Unemployment Rate** fell to 9.9 percent in the Second quarter of 2018 compared to 12.0 percent a year ago. Meanwhile, the number of employed has reached 23 million labor during the same period, compared to 25.7 million.

- Ø **Total Government Debt** (domestic and external) increased to LE 3676 billion (105.9 percent of GDP) at end of March 2017. This is driven mainly by increased Domestic debt since Treasury Bills debt increased to LE 1096 billion end of March 2017, compared to LE 816 billion end of June 2016. (Data for end of June 2017 are under preparation and will be published once finalized).

Meanwhile, government external debt increased as loans increased to US\$ 31.6 million end of March 2018, compared to US\$ 25.9 billion at end of June 2017. Meanwhile, Monetary Authorities debt decreased to US\$ 27.3 million at the end of March 2018, compared to US\$ 30.3 million last fiscal year.

It's noteworthy that during 2017 a total amount of US\$ 30 billion was repaid, as per Central Bank of Egypt, distributed on due bonds, foreign debt of international banks such as African Export-Import Bank, deposits and loans from many countries of which KSA, Libya and Turkey, in addition to obligations to government entities such as EGPC and other obligations to Paris Club.

§ On the Expenditures Side:

A key focus of the Ministry of Finance's fiscal reforms is the reprioritization of Public Expenditure in favour of lower-income groups to achieve the best social yield through investment in human capital and better distribution of services and infrastructure, with measures designed to improve basic well-being and to widen social safety nets. Total Expenditures recorded an increase of 23.7 percent to post LE 184.2 billion (3.5 percent of GDP) during the period July- August 18/19, compared to LE 148.9 billion during the same period of last year.

- Wages and Compensation of Employees rose by 24.8 percent to record LE 46.7 billion (0.9 percent of GDP) during the period of study (in light of the increase in permanent salaries to reach LE 12.6 billion, and the increase of rewards to reach LE 17.2 billion, and the increase of specific allowances to reach LE 3.9 billion).
- Purchase of Goods and Services increased by LE 2.1 billion (56.5 percent growth) to reach LE 5.8 billion (0.1 percent of GDP) (in light of the increase in spending on Maintenance to reach LE 1.1 billion, and Raw materials to record LE 1.5 billion).
- Interest Payments rose by 44.9 percent growth to reach LE 85.8 billion (1.6 percent of GDP), compared to LE 59.2 billion during the same period last year.
- Subsidies, Grants and Social Benefits rose by LE 3.3 billion (0.5 percent of GDP), (14.0 percent growth) to record LE 27.1 billion, compared to LE 23.8 billion during the same period last year.
 - ü Spending on Subsidies stabilized at LE 13.3 billion during the period of study, compared to LE 13.2 billion during the same period of last year, this came in light of; GASC spending grew by LE 3 billion (48 percent growth) reaching LE 9.3 billion during the period of study, compared to LE 6.3 billion during July- August 17/18, and which counterparted the decline in Electricity subsidies by LE 2.7 billion to reach LE 2.7 billion, compared to LE 5.4 billion during the same period of last year.
 - ü Spending on Social Benefits rose by LE 3.2 billion (33.5 percent growth) to reach LE 12.8 billion during the period of study, compared to LE 9.6 billion during the same period of last year, this came in light of; spending on budget contributions in pensions grew by LE 4.2 billion (88.2 percent growth) reaching LE 9.0 billion during the period of study, compared to LE 4.8 billion during July- August 17/18, and the decline in Voluntary Transfers (Service expenditures for non employees) by LE 1.7 billion to record LE 0.5 billion during the period of study, compared to LE 2.2 billion during the same period last year, in light of the exceptional increase in spending on health treatments for Virus C Program incurred during the same period of last year.

- Purchases of Non-financial Assets (investments) rose by LE 1.1 billion (0.2 percent of GDP), growing by 13.5 percent growth to reach LE 9.7 billion (in light of increased spending on fixed assets to record LE 9.2 billion).
- Other Expenditures recorded LE 9.2 billion (0.2 percent of GDP), declining by -43.7 percent compared to the same period last fiscal year.

Public Debt:

Total Government Debt (Domestic and External) increased to LE 3676 billion (105.9 percent of GDP) at end of March 2017, of which:

(Data for end of June 2017 are under preparation and will be published once finalized)

- Domestic Budget Sector Debt increased to LE 3097,6 billion (89.3 percent of GDP) by end of March 2017, compared to LE 2573 billion (95 percent of GDP) by end of June 2016.

The rise in Domestic Budget Sector Debt during the period of study was mainly due to financing the budget deficit, in addition to the impact of settling of some cross-debt issues among budget sector entities (particularly those of the SIF and EGPC). It is worthy to note that these settlements are expected to eventually enhance their financial performance.

- External Debt Stock (Government and Non-government Debt) increased to US\$ 92.6 billion (37.2 percent of GDP) at end of June 2018, compared to US\$ 79 billion at end of June 2017.
- Meanwhile, Government External Debt increased to US\$ 47.6 billion (19.1 percent of GDP) as of end of June 2018, compared to US\$ 34.9 billion (18.1 percent of the GDP) at end of June 2017.
- It's noteworthy that during 2017 a total amount of US\$ 30 billion was repaid, as per Central Bank of Egypt, distributed on due bonds, foreign debt of international banks such as African Export-Import Bank, deposits and loans from many countries of which KSA, Libya and Turkey, in addition to obligations to government entities such as EGPC and other obligations to Paris Club.

The previous period has witnessed many changes in the external debt structure:

- First, government external debt has decreased compensated by Central Bank of Egypt's increase, as CBE's external debt as percent of total external debt increased from 4 percent at end of June 2010 to 38 percent at end of June 2017.
- Second, short-term debt as percent of total external debt has increased from 9 percent at end of June 2010 to 16 percent at end of June 2017, however, medium and long-term debt decreased from 91 percent at end of June 2010 to 84 percent at end of June 2017.
- Finally, the proportional weight of USA, France, Japan and Germany has significantly increased, elevating dependency on Arab loans (especially Saudi Arabia, United Arab of Emirates and Kuwait) , which recorded 29.2 percent of total external debt at end of March 2017, compared to 4.7 percent at end of June 2010, as per Egyptian Centre for Economic Studies.

Monetary Perspective:

Regarding **Monetary Developments**, M2 annual growth decreased to 18.5 percent in June 2018 (LE 3457 billion), compared to 19.4 percent in last month, and compared to 39.3 percent at end of June 2017, according to recent data released by the CBE. This is attributed to the sharp decrease in the annual growth of Net domestic assets (NDA) to record 10.2 percent at end of June 2018 (LE 3147.5 billion), compared to 30.9 percent end of June 2017. Yet, it's noteworthy to mention the considerable deceleration in government borrowing reflected in a slowdown in the annual growth of Net Claims on Government & GASC to 12 percent (LE 2217.6 billion) at end of June 2018, compared to 19.6 percent at end of June 2017 in light of the bold fiscal consolidation reforms adopted by the Ministry of Finance. Moreover, there's a significant slowdown in the annual growth of Government Securities (to the banking system) to record 5.2 percent (LE 2266.3 billion) at end of June 2018, compared to 33.5 percent at end of June 2017.

Also, Credit Facilities annual growth increased to 30.8 percent (LE 131.7 billion) at end of June 2018, compared to -65.4 percent at end of June 2017. While, Government Deposits annual growth decreased to -4.6 percent (LE 426.4 billion) at end of June 2018, compared to 47.7 percent at end of June 2017.

Furthermore, annual growth of Claims on Public Business Sector decreased significantly to 7.7 percent (LE 160.2 billion) at end of June 2018, compared to 59.8 percent at end of June 2017.

Annual growth in Credit to the Private Sector decreased to 10.1 percent (LE 1082.6 billion) at end of June 2018, compared to 38 percent (LE 982.9 billion) at end of June 2017. This could be attributed to the decrease witnessed in annual growth of Claims on Private Business Sector to record LE 7.6 percent (LE 801.4 billion) during the month of study, compared to 47.7 percent (LE 744.6 billion) at end of June 2017. Moreover, annual growth of Claims on Household Sector decreased to record 18 percent (LE 281.2 billion) at end of June 2018, compared to 14.7 percent (LE 238.3 billion) at end of June 2017.

On the other hand, there's a positive annual growth trend in Net Foreign Assets (NFA) that records 407 percent (LE 309.5 billion) at end of June 2018, compared to 169.9 percent (LE 61.1 billion) at end of June 2017. This is credited primarily to the decrease in the annual growth of Banks' net foreign reserves' to -86 percent at end of June 2018, compared to 234.9 percent at end of June 2017. In addition, CBE net foreign reserves' annual growth increased

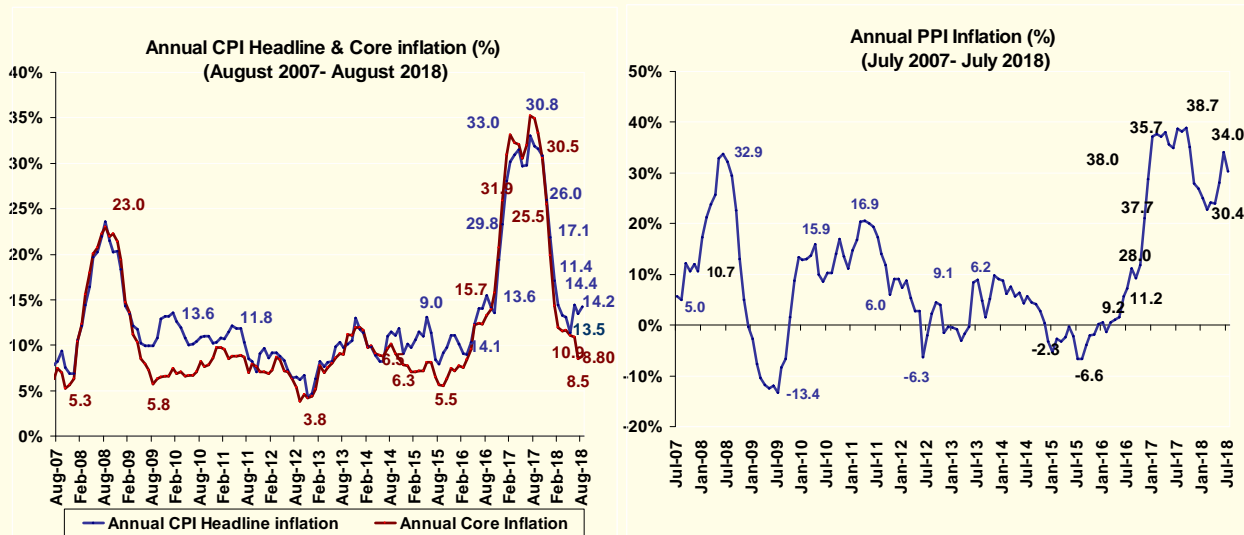

exponentially to 8070.5 percent at end of June 2018 (LE 301.5 billion), compared to 108.2 percent at end of June 2017. This exceptional reverse can be explained in light of the floatation of the Egyptian Pound in November 2016, which attracted investment inflows in T-bills and bonds as well as the CBE's decision to raise interest rates to stimulate foreign currency deposits.

From the liabilities side, Money annual growth decreased to 16.4 percent (LE 823.3 billion) at end of June 2018, compared to 23.5 percent at end of June 2017. This could be attributed to the deceleration in Currency in Circulation's annual growth - in light of CBE's contractionary monetary policy - of 5.4 percent at end of June 2018, compared to 20.8 percent at end of June 2017, which could not be offset by the upsurge in Demand Deposits in Local Currency's annual growth to 32.4 percent (LE 381.7 billion) at end of June 2018, compared to 27.6 percent at end of June 2017.

Quasi Money annual growth decreased to 19.1 percent (LE 2633.7 billion) at end of June 2018, compared to 45.3 percent at end of June 2017. This is mainly due to the beginning of stability in the impact of the higher exchange rate after its liberalization in November 2016 as well as the latest raise in interest rates by CBE of 200 bps in July 2017. On a detailed level, Foreign Currency Demand, Time & Savings annual growth decreased to record 3.3 percent (LE 717 billion) at end of June 2018, compared to 114.4 percent at end of June 2017. Meanwhile, annual growth of Local Currency Time and Savings Deposits increased to 26.4 percent (LE 1916.8 billion) at end of June 2018, compared to 26.6 percent at end of June 2017.

Total Deposits annual growth rate– excluding deposits at the CBE – decreased to 18.9 percent (LE 3536.3 billion) at the end of May 2018, compared to 43 percent at end of May 2017. Out of total deposits, 84.4 percent belonged to the non-government sector. Moreover, annual growth rate in Total Lending by the banking sector (excluding CBE) decreased to 15 percent (LE 1616.1 billion) at end of May 2018, compared to 51.8 percent at end of May 2017. To that end, the Loans-to-deposits Ratio slightly decreased to 45.7 percent at end of May 2018, compared to 47.3 percent at end of May 2017. (Data for June 2018 is not yet available).

- Ø **Net International Reserves (NIR)** increased to a record-high US\$ 44.4 billion during August 2018 (covering 8.4 months of imports), compared to US\$ 36.1 billion at end of August 2017 (covering 7.3 months of imports), and compared to a lowest level of US\$ 13.4 billion at end of March 2013 (covering 3.5 months of imports).
- Ø **Headline Urban Inflation** increased to record 14.2 percent in August 2018, compared to 13.5 percent during previous month, and compared to 31.9 percent in August 2017. Factors contributing to this include the increase in annual inflation among some main groups during the month of study compared to last month. On the top of which comes; "Food and Beverages" group (the highest weight in CPI) to record 11.6 percent during August 2018, compared to 9.6 percent during last month, "Alcoholic Beverages& tobacco" to record 21.9 percent, compared to 21.0 percent, "Furnishings& household equipment" to record 15.8 percent, compared to 15.0 percent, "Health " to record 4.0 percent, compared to 3.8 percent, and "Transportation " to record 38.1 percent during August 2018.
- Ø Average Annual Headline Inflation recorded 13.9 percent during July- August 18/19, compared to 32.5 percent during the same period of last year.

- Ø Monthly Inflation increased at a slower pace to 1.8 percent during August 2018, compared to 2.4 percent during last month, and compared to 2.4 percent the average recorded during the period November 2016 to September 2017 (inflationary pressure period). This came in light of the decrease in some sub items on the top of which; "Clothing and footwear" to record -0.8 percent, compared to 1.5 percent during last month, "Housing, Water, Electricity and Fuel" to record 1.6 percent, compared to 5.2 percent during last month, "Furnishings& household equipment" recoded 0.7 percent, compared to 2.2 percent during last month, "Recreation and culture" group has recorded 0.1 percent, compared to 3.4 percent during last month, and "Restaurants and Hotels" group has recorded 0.9 percent, compared to 4.1 percent during last month. This overweighted the increase of "Meat" by 1.7 percent, compared to -1.9 percent during last month, "Fruit" by 7.1 percent, compared to 4.1 percent, "Milk& Egg" by 1.6 percent, compared to 0.6 percent ,and "Electricity and Fuel" by 4.4 percent.
- Ø Annual Core Inflation¹ increased to record 8.8 percent during August 2018, compared to 8.5 percent during the last month, and compared to 34.9 percent during August 2017. Meanwhile, monthly core inflation has stabilized at 0.58 percent during August 2018.
- Ø During its Monetary Policy Committee meeting held on September 27th, 2018, CBE decided to keep the overnight deposit rate, and overnight lending rates and the rate of CBE's main operation unchanged at 16.75 percent, 17.75 percent and 17.25 percent, respectively. Also, the discount rate was kept at 17.25 percent.
- Ø Moreover, in an attempt to absorb excess liquidity and to protect the domestic currency, the CBE held deposit auctions on October 16th, 2018 worth LE 50 billion with 7-day maturity at a fixed annual interest rate of 17.25 percent.
- Ø The Egyptian Exchange market capitalization increased by 0.9 percent m-o-m during August 2018 to reach LE 881.7 billion, compared to LE 873.6 billion in the previous month. The EGX-30 Index increased by 2.8 percent during August 2018 to reach 16,009.4 points, compared to closing at 15,580.2 points by the end of July 2018. Meanwhile, the EGX-70 increased by 0.4 percent, closing at 747.4 points compared to 744.5 points in the previous month.

¹The Core Index excludes items with managed prices 'regulated items' (fuel, electricity, exported and imported tobacco), and items characterized by inherent price volatility specifically 'fruits and vegetables'.

Ø *On the External Sector side:*

BOP ran an overall surplus of US\$ 12.79 billion (5.1 percent of GDP), during the FY 2017/2018, compared to a surplus of US\$ 13.72 billion (5.8 percent of GDP) in the FY 2016/2017. This decrease is mainly due to the result of the decrease in the capital and financial account by 29 percent as a result of the decline in Portfolio Investment abroad and in Egypt. The decline in the capital and financial account exceeded the increase in current account which recorded US\$ -6 billion in the FY 2017/2018, compared to US\$ -14.4 billion in the last FY 2016/2017. On a more detailed level, these developments occurred as a result of the following:

- § Current account recorded a deficit of US\$ 6 billion (-2.4 percent of GDP) during the FY 2017/2018, however, this is considered a very huge improvement compared to a much higher deficit of US\$ 14.4 billion (-6.1 percent of GDP) in the period of comparison. This is explained by the increase in the services balance surplus and transfers, which exceeded the slight decline in the trade balance. This amelioration came in light of the following:
 - Trade balance deficit remained stable to record US\$ 37.3 billion (-14.85 percent of GDP) during the FY 2017/2018, compared to the same value last fiscal year. This was mainly driven by the increase in merchandise exports by 19 percent (US\$ 4.1 billion), to register US\$ 25.8 billion compared to US\$ 21.7 billion in the period of comparison, which offset the similar increase in merchandise imports by 6.9 percent (US\$ 4.1 billion) to reach US\$ 63.1 billion compared to US\$ 59 in the period of comparison. This is mostly due to the increase in non-petroleum exports by 12.7 percent to record US\$ 17.1 billion during the study period, compared to US\$ 15.1 billion in the period of comparison, as a result of the improvement in the competitiveness of the Egyptian exports in the international market after the decision of the exchange rate liberalization. Moreover, petroleum exports receipts registered US\$ 8.8 billion in the period of study, compared to US\$ 6.6 billion in the period of comparison due to the increase in international world prices of oil.
 - The services balance surplus escalated to record US\$ 11.1 billion (4.4 percent of GDP) during the FY 2017/2018, compared to a lower surplus of US\$ 5.6 billion (2.4 percent of GDP) in the period of comparison. This mainly came in light of the increase witnessed in Suez Canal receipts to record US\$ 5.7 billion, compared to US\$ 4.9 billion during the last fiscal year, in addition to the increase in travel receipts (tourism revenues) that reached US\$ 9.8 billion in the period of study, compared to US\$ 4.4 billion in period of comparison. Whereas, travel payments experienced a decrease to record US\$ 2.5 billion, compared to US\$ 2.7 billion.
- § Net Transfers expanded to register US\$ 26.5 billion during the FY 2017/2018, compared to US\$ 21.8 billion during last fiscal year, mainly due to the increase in workers' remittances by US\$ 4.6 billion to record US\$ 26.4 billion compared to US\$ 21.8 billion in the period of comparison; reflecting the effect of exchange rate liberalization.
- § Meanwhile, the Capital and Financial Account decreased to register US\$ 22 billion (8.8 percent of GDP) during the FY 2017/2018, compared to higher net inflow of US\$ 31 billion (13.2 percent of GDP) in the last fiscal year. This is due to the following:
 - Net foreign direct investment in Egypt (FDI) decreased to reach US\$ 7.7 billion (3.1 percent of GDP) during the FY 2017/2018, compared to US\$ 7.9 billion (3.4 percent of GDP) in the last fiscal year. This is mainly due to the net investment of US\$ 4.5 billion in the oil sector.

- Portfolio investment in Egypt decreased to record US\$ 12.1 billion (4.8 percent of GDP) during the FY 2017/2018, compared to US\$ 16 billion (6.8 percent of GDP) during the last fiscal year. This was ascribed to the decrease in foreigners' investments in Egyptian treasury bills, recording net purchases of US\$ 6.5 billion during period of study, compared to US\$ 10 billion during the period of comparison, and to the bonds offered abroad by the Egyptian government, in the amount of US\$ 5.3 billion during the FY 2017/2018.
 - Other investments decreased to register US\$ 2.6 billion (1.1 percent of GDP) during the FY 2017/2018, compared to net inflows of US\$ 7.2 billion (3.1 percent of GDP) in the last fiscal year.
 - Net change in the liabilities of the CBE to the external world decreased, posting a net external repayment of US\$ 3.9 billion during the FY 2017/2018, compared to US\$ 8.1 billion in the last fiscal year.
- § Net errors and omissions recorded a net outflow of US\$ 3.2 billion (-1.3 percent of GDP) during the FY 2017/2018, compared to an outflow of US\$ 2.9 billion (-1.2 percent of GDP) during the last fiscal year.
- Ø According to the latest published figures, total number of Tourist Arrivals increased by 48.5 percent to reach 9.8 million tourists during the FY 2017/2018, compared to 6.6 million tourists during last fiscal year. Moreover, Tourist Nights increased to reach 102.6 million nights during FY 2017/2018 increasing by 101.6 percent, compared to 50.9 million nights during last year.

1/ Debt figures depict consolidated stocks at three different levels of compilation; the Budget Sector, the General Government, and the Public Sector. The Budget sector debt stock encompasses outstanding stocks of Central Administration, Local Governments, and Public Service Authorities. The General Government debt stock includes the consolidated debt stocks of the Budget sector, the NIB, and SIF. The Public sector debt stock corresponds to the consolidated debt of the General Government and Economic Authorities.

2/ Outstanding domestic debt stocks due on Central Administration, Local Governments, and Public Service Authorities.

3/ The notable decline in Budget sector deposits can be explained in light of the use of nearly LE 60 billion according to the presidential decree number 105 for the year 2013.

4/ Consolidated domestic debt of the Budget sector, NIB, and SIF. This level of compilation entails the deduction of Budget Sector borrowings from NIB, MOF securities held by the SIF and NIB, the SIF bonds, and NIB borrowings from SIF.

5/ Consolidated domestic debt due on the General Government and Economic Authorities. This level of compilation excludes outstanding debt of Economic Authorities to NIB as well as Budget Sector borrowing from Economic Authorities.

6/ Total deposits of General Government and Economic Authorities (net of SIF deposits and Budget Sector borrowing from Economic Authorities).

7/ Total Government Debt includes External Debt serviced by the Ministry of Finance.

8/ During the second quarter of FY12/13, a total amount of US\$ 4 billion were deposited in CBE as part of a Qatari financial assistance pledge.

9/ GDP estimate for FY17/18 has been revised recently to reach LE 4440.6 billion instead of 4286.5 billion. Meanwhile GDP projections for FY18/19 are estimated to reach LE 5250.9 billion as per the Ministry of Finance Calculations.

10/ There is a combined factor behind the decrease witnessed in gross external debt as percent of GDP at end of March 2018: on one hand, the increase in nominal value of GDP in FY 17/18; on the other hand, the increase of Gross External Debt at a slower pace due to the appreciation in exchange rate.

1/ Starting August 2009, CPI Urban data is based on the weights derived from 2008/2009 income and expenditure survey, and using January 2010 as a base month. Prior to this date, the basket and weights were derived from 2004/2005 income and expenditure survey taking January 2007 as a base month.

2/ The new series of Producer Price Index was issued by CAPMAS starting September 2007, using 2004/2005 prices of goods and services as a base period, and deriving sub-group weights from average values of agricultural, industrial and services production for the years 2002/2003 and 2003/2004. It is worth mentioning that Producer Price Index series before September 2007 are not available so far.

3/The Central Bank of Egypt launched "Core Inflation Index" derived from the CAPMAS headline CPI, however it excludes items characterized by inherent price volatility and those with managed prices, specifically 'fruits and vegetables' (8.8 percent of headline CPI basket) as well as 'regulated items' (19.4 percent of headline CPI basket).

2/ Data reflects budget figures in light of Decree Number 100 for the year 2018.

3/ The decline in Taxes on Corporate Profits from Other Companies is mainly due to the adoption of additional exceptional taxes during the year of comparison FY 14/15, and which was cancelled during FY 15/16, leading Taxes on Corporate Profits from Other Companies to appear at a lower amount during the year of study compared to last year. This includes a 5 percent additional taxes on the income exceeding LE 1 million. This does not affect Other companies income, as it is expected to record additional revenues during the coming period.

4/ The decline in Taxes on Corporate Profits from CBE is mainly due to the accomodative monetary policy adopted by the CBE to curb inflation since FY16/17, where the increase in interest rates has imposed burdens on CBE profits.

1/ The decrease in non-tax revenues, came on the back of the decline in the exceptional resources from grants which were included in the state budget for the year 2014/2015 to reach LE 25.4 billion down from LE 95.9 billion in 2013/2014.

2/ Data reflects budget figures in light of Presidential Decree Number 145 for the year 2017

3/ Data reflects budget figures in light of Decree Number 100 for the year 2018.

4/ Includes grants from Public Entities .

5/ Revenues from special accounts and funds belonging to budget sector entities like public universities, medical centers and research institutes. Such revenues are met by equivalent amounts on the expenditures side.

6/ Includes additional 10 percent of the monthly receipts of the Special Accounts and Funds, in addition to 25 percent of the outstanding balances of those funds were transferred to the Ministry of Finance applied only during 2013/2014 according to law Number 19 for the year 2013.

7/ Reflects allocations to finance investment projects in previous year, which were not used during that year. Such allocations are thus carried forward to the current fiscal year and recorded as self-financing sources of investment under miscellaneous revenues.

8/ The increase in "Other capital revenue to finance investments" represents expected increases in self finances for the social housing program. This increase has similarly corresponding increases on the expenditure side.

9/ The decline in dividnes from EGPC is mainly in light of the decline in international petroleum prices.

10/ The decline in dividends receipts from Suez canal is partially due to the slowdown in international trade, and China slowed economic growth. In addition, the decline in international oil prices have affected the number of vessels passing through Suez Canal.

11/ The increase in receipts from Miscellaneous revenues is mainly due to the acquirance of 25 percent of the delayed profits with a total amount of LE 1.5 billion, and the increase in resettlements revenues from Lands by LE 4 billion, in addition to the repayment of other tax dues by LE 3.5 billion during the year of study.

12/ The decline in Dividends collected from EGPC is due to the increase in cost budens on EGPC due to the effect of depreciated Egyptian Pound Exchange rate against US Dollars.

13/ The decline in Dividends collected from CBE is mainly due to the accomodative monetary policy adopted by the CBE to curb inflation since FY16/17, where the increase in interest rates has imposed burdens on CBE profits.

14/ The increase in Other Property Income is due to the additional LE 6.6 billion from the sale of 4G liscence.

15/ The increase in grants is mainly due to Capital Grants received from United Arab Emirates (UAE) to finance investments during FY16/17.

16/ The decline in dividends from Suez Canal could be explained in light of the effect of downsized performance of the global economy.

1/ Domestic debt figures were revised in consistency with international standards of classification. Debt figures depict consolidated stocks at three different levels of compilation; the Budget Sector, the General Government, and the Public Sector. The Budget sector debt stock encompasses outstanding stocks of Central Administration, Local Governments, and Public Service Authorities. The General Government debt stock includes the consolidated debt stocks of the Budget sector, the NIB, and SIF. The Public sector debt stock corresponds to the consolidated debt of the General Government and Economic Authorities.

2/ Outstanding domestic debt stocks due on Central Administration, Local Governments, and Public Service Authorities.

3/ The notable decline in Budget sector deposits can be explained in light of the use of nearly LE 60 billion according to the presidential decree number 105 for the year 2013.

4/ Consolidated domestic debt of the Budget sector, NIB, and SIF. This level of compilation entails the deduction of Budget Sector borrowings from NIB, MOF securities held by the SIF and NIB, the SIF bonds, and NIB borrowings from SIF.

5/ Consolidated domestic debt due on the General Government and Economic Authorities. This level of compilation excludes outstanding debt of Economic Authorities to NIB as well as Budget Sector borrowing from Economic Authorities.

6/ Total deposits of General Government and Economic Authorities (net of SIF deposits and Budget Sector borrowing from Economic Authorities).

7/ GDP estimate for FY17/18 has been revised recently to reach LE 4440.6 billion instead of 4286.5 billion. Meanwhile GDP projections for FY18/19 are estimated to reach LE 5250.9 billion as per the Ministry of Finance Calculations.

* Preliminary.

1/ Gross External Government debt has witnessed an increase during last year by US\$ 23.3 billion mainly in light of the borrowing from Eurobond issuances of 7 billions, 2.75 billions loan by the IMF (part of extended fund facility), 2 billions loan by the WorldBank and 0.5 billion loan by the African Development Bank.

2/ It's noteworthy that during 2017 a total amount of US\$ 30 billion was repaid, as per Central Bank of Egypt, distributed on due bonds, foreign debt of international banks such as African Export-Import Bank, deposits and loans from many countries of which KSA, Libya and Turkey, in addition to obligations to government entities such as EGPC and other obligations to Paris Club.

3/ Based on CBE classification, CBE writes-off outstanding debt on government entities (both direct and indirect) to paris Club according to rescheduled dates of repayments. On the other hand, indebted government entities write-off these debts(dominated in EGP) once they are paid back to CBE and according to original schedule, which precedes rescheduled dates.

4/ CBE reclassified US\$ 4.3 billion as part of Central and Local Government debt, that was only reflected in its statistics starting September 2008. It is noteworthy that such reclassification has not had any impact on the total outstanding foreign debt.

5/ GDP estimate for FY17/18 has been revised recently to reach LE 4440.6 billion instead of 4286.5 billion. Meanwhile GDP projections for FY18/19 are estimated to reach LE 5250.9 billion as per the Ministry of Finance Calculations.

6/ Gross external debt as % of GDP is calculated using end of period exchange rate.

7/ There is a combined factor behind the decrease witnessed in gross external debt as percent of GDP at end of March 2018: on one hand, the increase in nominal value of GDP in FY 17/18; on the other hand, the increase of Gross External Debt at a slower pace due to the appreciation in exchange rate.

8/ Worth mentioning that gross external debt at end of quarter is calculated as a ratio of full-year exports of goods and services.

1/ The increase witnessed in the total government debt service comes in light of the rise in the principal payments of the domestic debt due to the increase in treasury bond repayments by almost LE 100 billion by the end of FY14/15.

3/ Jul-Aug 2018/19 ratios are in percent of full year 2018/19 GDP estimates.

4/ Jul-Aug 2018/19 ratios are in percent of Jul-Aug 2018/19 expenditure.
